With how Career Guard helped me in my ordeal I have had a lot of people sign up. Pete and his staff were outstanding and I know I could not have made it through as well without their support. Whenever I had an issue they were there. You can't place a value on having people like Pete and Rob their helping you through a very rough time. The government doesn't advise you of anything, which is the worse, but Pete and Rob helped me get through it and ensured my rights were protected. You definitely have an advocate that will continue to spread the word and remain a career guard member throughout my career.

Thank you so much!!
